

To Whom It May Concern:

January 16, 2012

George Pringle Elementary School had the pleasure of having the SCREAM team lead our Grade 5 Leadership Program this fall. They were fun, energetic, and our students were always excited to see what activities the SCREAM team prepared for them. Their lessons varied each week from group discussion to role playing and working in small groups. Their lessons focused on showing the students their own personal and unique strengths. They helped promote development of self that will provide students tools to become a resilient and self-confident citizen. The overall program focused on personal strengths of each child, character development, making healthy choices when interacting with social, media and cultural messages, practicing positive relational skills to build authentic friendships, and finally to inspire each child that they can make a difference in our community/world by using their own personal strengths.

The SCREAM team were extremely flexible and adapted their program to meet the needs of our school. They did a excellent job motivating and inspiring our students. I feel each student became aware of their own special qualities and gifts that they can contribute to making a difference within our school community and helped motivate them to be the best they can be. This is a fantastic program and I would highly recommend using this program again.

Sincerely,

Lise Rogall
