To whom it may concern,

I had the privilege of getting to work alongside the SCREAM team through the Leadership 5 program at George Pringle Elementary school. They are a very generous organization that donated their time and expertise to the students of GPE. They are a very energetic and dedicated group that wants to make a difference in the lives of each and every child. They aim to empower children to become confident in themselves and believe in their own self worth. As well, they emphasize that every child is different and they work to support every individual strength in order to build character.

The SCREAM team helped the students at GPE to identify their three main strengths. They were encouraged to learn more about their strength and see how they connected to their character. They were then challenged to use their personal strengths to improve the world for themselves and the people around them.

The SCREAM team was extremely easy to work with and moulded their program to fit the needs of our leadership program. They were very eager to receive feedback in order to continually improve the delivery of their program. I really enjoyed the opportunity to interact with the SCREAM team and look forward to working with them in the future.

Sincerely,

Peter Gallo
Vice-Principal
George Pringle Elementary School
